

My Dementia
Companion **CARER**

**Walking family and
friend carers through
one of life's most
challenging and
confusing journeys**

After a diagnosis, you may be overwhelmed with

- What to do? Where to start?
- Am I doing the right thing?
- What do I need to know?
- Where and when to get help?
- What subsidies and support are available?
- How to manage and live well?

Personalised and practical guidance at your fingertips

The CARER tool will provide you with:

- quality information from experts
- practical tips from other carers just like you
- Untangling the 'maze' and empowering you to navigate your own journey.

As a passion project, we offer a 60-day free trial, then less than the cost of a coffee (cancel anytime). Home Care Packages or NDIS can cover the cost, if needed.
